

Oskar Olsson about Aqua4power

My name is Oskar Olsson, I'm 17 years old and I am from Skåne Fagerhult, Sweden where I grew up with my mom, dad and two older sisters.

I started my motocross racing career at home in the woods on a bike without pedals at 1.5 years of age. Over time I have rode many different motocross bikes. As an 11 year old, I won the National Championship in 85, the Golden Helmet. In 2007 I was placed 7th in the youth championships and won another two Championship races. In 2008 I placed 3rd in the Youth Championship and that same year I raced in two European Championships and a World Cup and was drafted by the national team. In the World Cup race I earned two points.

2009, I took the step up to big bikes though still in the Uclass and was fifth, only four points from a bronze. 2010 I upgraded to junior class and in mid-season I qualified as an elite rider and earned three points.

2011 began a little more uneven with 18-17 seats in first SM in Vissefjärda. In Tibro following results: 20-12.

During the break between races, I started drinking **Aqua4Power**. It had been recommended that I drink Aqua4Power to reduce recovery time and clear out waste products that are formed in the body during strenuous physical exercise such as motocross racing.

The immediate effects were that it made me feel stronger and recovery time was absolutely quicker. I also felt a big difference especially at the end of the heats where I had more energy left than usual and could run at full speed to the finish line. My final lap, in time, matched the 2 fastest World Cup riders and I felt super strong.

The results that followed were two 6th places, which my sponsors and I saw as very positive!

The recovery time between heats are quicker and my body feels more efficient than it did before I started drinking Aqua4Power.

My family and I have also noticed that my acne has almost completely disappeared. I wanted to share the positive impact Aqua4Power has had on my increased endurance and all around well being.

Best regards

Oskar Olsson #104
